

Every port. Every connection.

TP-Link TL-SG1218MPE | Original port-connection record

14 labelled connections 4 ports without a destination in the original message

SOURCE Original user message, recovered 5 October 2026.

Blank destinations mean not specified; they do not confirm an unused port.

Port 16 = neoHub. "Study 1" normalised to "Study 1". Later wiring changes remain to be verified.
